Primary School

Asthma Policy

September 2025

*To be reviewed September
2026*

For with God, everything is possible (Matthew 19:26) #everythingispossible

Our vision for Queen's Park C.E./U.R.C. Primary School

For with God, everything is possible (Matthew 19:26) #everythingispossible

Through our continued service to our community and rooted in our Christian Values, the opportunities we provide inspire our children and adults at our school to learn, to grow and to flourish. We are committed to developing our children into confident individuals who make a positive difference through developing a respect for themselves, each other and the world around them. For with God, everything is possible. (Matthew 19:26)

Our Core Christian Values

Love

Forgiveness

Trust

Respect

Honesty

Hope

Intent

Queen's Park C.E./U.R.C recognises that asthma is a serious but controllable condition and welcomes all pupils with asthma. The school ensures that pupils with asthma can and do participate fully in all aspects of school life including physical exercise, visits, field trips and other out-of-school activities, while also recognising that pupils with asthma need immediate access to reliever inhalers at all times. To do this, the school will keep a record of all pupils with asthma and their medicinal requirements, to ensure that the school environment is conducive to the education of pupils with asthma. All members of school staff (including supply teachers and support staff) who come into contact with pupils with asthma are aware of what to do in the event of an asthma attack.

The school works in partnership with interested parties, such as the governing board, members of school staff, parents, pupils and outside agencies, to ensure the best educational outcomes possible for pupils with asthma. This policy enables pupils with asthma to manage their condition effectively in school and provides clear procedures to help ensure their safety and wellbeing. This policy also encourages and assists pupils with asthma in achieving their full potential in all aspects of school life.

Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Equality Act 2010
- DfE (2015) 'Supporting pupils at school with medical conditions'
- DfE (2015) 'Guidance on the use of emergency salbutamol inhalers in schools'
- Asthma UK (2020) 'Asthma at school and nursery'
- DfE (2022) 'First aid in schools, early years and further education'

This policy operates in conjunction with the following school policies:

#everythingispossible

For with God, everything is possible (Matthew 19:26) #everythingispossible

- Complaints Policy
- First Aid Policy
- Administering Medicines Policy

Roles and responsibilities

The governing board has a responsibility to:

- Ensure the health and safety of staff and pupils is protected on the school premises and when taking part in school activities.
- Ensure that this policy, as written, does not discriminate against any of the protected characteristics, in line with the Equality Act 2010.
- Handle complaints regarding this policy as outlined in the school's Complaints Policy.
- Ensure this policy is effectively monitored and updated.
- Report any successes and failures of this policy to the headteacher, members of school staff, local health authorities, parents and pupils.
- Provide indemnity for teachers and other members of school staff who volunteer to administer medicine to pupils with asthma in need of help.

The headteacher has a responsibility to:

- Create and implement the Asthma Policy with the help of school staff, school nurses, LA guidance and the governing board.
- Ensure this policy is effectively implemented and communicated to all members of the school community.
- Ensure all aspects of this policy are effectively carried out.
- Arrange for all members of staff to receive training on:
 - How to recognise the symptoms of an asthma attack.
 - How to distinguish asthma attacks from other conditions with similar symptoms.
 - How to deal with an asthma attack.
 - How to check if a pupil is on the school's central asthma register.
 - How to access the emergency inhalers.
 - Who the designated members of staff are and how to achieve their help.
- Ensure all supply teachers and new members of staff are made aware of the Asthma Policy and provided with appropriate training.
- Ensure that first aiders are appropriately trained regarding asthma, e.g. supporting pupils to take their own medication and caring for pupils who are having asthma attacks.
- Monitor the effectiveness of the Asthma Policy.
- Delegate the responsibility to check the expiry date of spare reliever inhalers and maintain the school's asthma register to a designated member of staff.
- Report incidents and other relevant information to the governing board and LA as necessary.

All school staff have a responsibility to:

For with God, everything is possible (Matthew 19:26) #everythingispossible

- Read and understand the Asthma Policy.
- Know which pupils they come into contact with have asthma.
- Know what to do in the event of an asthma attack
- Allow pupils with asthma immediate access to their reliever inhaler.
- Inform parents if their child has had an asthma attack.
- Inform parents if their child is using their reliever inhaler more than usual.
- Ensure pupils with asthma have their medication with them on school trips and during activities outside of the classroom.
- Ensure pupils who are unwell due to asthma are allowed the time and resources to catch up on missed school work.
- Be aware that pupils with asthma may experience tiredness during the school day due to their night-time symptoms.
- Be aware that pupils with asthma may experience bullying due to their condition, and understand how to manage these instances of bullying.
- Make contact with parents, the school nurse and the SENCO if a pupil is falling behind with their school work because of their asthma.

Parents have a responsibility to:

- Inform the school if their child has asthma.
- Ensure the school has a complete and up-to-date information regarding their child's asthma.
- Inform the school of the medication their child requires during school hours.
- Inform the school of any medication their child requires during school trips, team sports events and other out-of-school activities.
- Inform the school of any changes to their child's medicinal requirements.
- Inform the school of any changes to their child's asthmatic condition, e.g. if their child is currently experiencing sleep problems due to their condition.
- Ensure their child's reliever inhaler (and spacer where relevant) is labelled with their child's name.
- Ensure that their child's reliever inhaler and spare inhaler are within their expiry dates.
- Ensure their child has regular asthma reviews with their doctors or asthma nurse (recommended every 6-12 months).

Asthma medicines

Reliever inhalers kept in the school's charge are held in the in a designated storage area in individual boxes for each child. Where a child is deemed old enough to do so by school staff, they are to carry their box with inhaler in whilst on any educational visits or taking part in outdoor PE.

Parents must label their child's inhaler with the child's full name and year group. Parents must ensure that the school is provided with a labelled spare reliever inhaler, in case their child's inhaler runs out, or is lost or forgotten.

Staff members who are trained in First Aid and Administering Medicines will administer asthma medicines to a child who requires their inhaler. Staff will administer the asthma medicines in line with the school's Administering Medication Policy. Staff members will let pupils take their own medicines when they need to. Any inhaler which is administered, will be recorded by the First Aider on CPOMS.

This policy is predominantly for the use of reliever inhalers. The use of preventer inhalers is very rarely required at school. In the instance of a preventer inhaler being necessary, staff members may need to remind pupils to bring them in or remind the pupil to take the inhaler before coming to school.

Emergency inhaler

The school keeps a supply of salbutamol inhalers for use in emergencies when a pupil's own inhaler is not available. The emergency inhaler should only be used by pupils, for whom written parental consent has been received and who have been either diagnosed with asthma or prescribed an inhaler as reliever medication. Parental consent for the use of an emergency inhaler should form part of any pupil with asthma's individual healthcare plan. When not in use, emergency inhalers are stored in the staffroom in the temperate conditions specified in the manufacturer's instructions, out of reach and sight of pupils, but not locked away.

In line with the school's Supporting Pupils with Medical Conditions Policy, appropriate support and training will be provided for relevant staff on the use of the emergency inhaler and administering the emergency inhaler.

Whenever the emergency inhaler is used, the incident must be recorded on CPOMS by the adult who administered the medication. The records will indicate where the attack took place, how much medication was given, and by whom. The pupil's parents will be informed of the incident in writing.

Symptoms of an asthma attack

Members of staff will look for the following symptoms of asthma attacks in pupils:

- Persistent coughing (when at rest)
- Shortness of breath (breathing fast and with effort)
- Wheezing
- Nasal flaring
- Complaints of tightness in the chest
- Being unusually quiet
- Difficulty speaking in full sentences

Younger pupils may express feeling tightness in the chest as a 'tummy ache'.

Response to an asthma attack

For with God, everything is possible (Matthew 19:26) #everythingispossible

In the event of an asthma attack, staff will follow the procedure outlined below:

- Keep calm and encourage pupils to do the same.
- Encourage the pupil to sit up and slightly forwards – do not hug them or lie them down.
- If necessary, call another member of staff to retrieve the emergency inhaler – do not leave the affected pupil unattended.
- If necessary, summon the assistance of a designated member of staff to help administer an emergency inhaler.
- Ensure the pupil takes two puffs of their reliever inhaler (or the emergency inhaler) immediately, preferably through a spacer.
- Ensure tight clothing is loosened.
- Reassure the pupil.

If there is no immediate improvement, staff will continue to ensure the pupil takes 2 puffs of their reliever inhaler every two minutes, until their systems improve, but only up to a **maximum of 10 puffs**. If there is no improvement before the pupil has reached 10 puffs:

- Call 999 for an ambulance.
- If an ambulance does not arrive within 10 minutes, the pupil can administer another 10 puffs of the reliever inhaler as outlined above.

Staff will call 999 immediately if:

- The pupil is too breathless or exhausted to talk.
- The pupil is going blue.
- The pupil's lips have a blue or white tinge.
- The pupil has collapsed.
- You are in any doubt.

Staff will not administer any medication where they have not been trained to do so.

In an emergency

Staff will never leave a pupil having an asthma attack unattended. If the pupil does not have their inhaler to hand, staff will send another member of staff or pupil to retrieve their spare inhaler.

As reliever medicine is very safe, staff will be made aware that the risk of pupils overdosing on reliever medicine is minor. Staff will send another pupil to get another member of staff if an ambulance needs to be called. The pupil's parent will be contacted immediately after calling an ambulance by the school office.

A member of staff should always accompany a pupil who is taken to hospital by ambulance and stay with them until their parent arrives. Generally, staff will not take pupils to hospital in their own car. In some extreme situations, the school understands that it may be the best course of action. If a situation warrants a staff member taking a pupil to hospital in their car, another staff member or other responsible adult must accompany them.

Record keeping

At the beginning of each school year, or when a child joins the school, parents are asked to inform the school if their child has any medical conditions, including asthma, on their enrolment form.

The school keeps a record of all pupils with asthma, complete with medication requirements, in its medical register. Parents must inform the school of any changes to their child's condition or medication during the school year via the school office.

Exercise and physical activity

Games, activities and sports are an essential part of school life for pupils. All teachers know which pupils in their class have asthma and are aware of any safety requirements.

Outside suppliers of sports clubs and activities are provided with information about pupils with asthma taking part in the activity via the school office during induction.

Pupils with asthma are encouraged to participate fully in PE lessons when they are able to do so. Pupils whose asthma is triggered by exercise will be allowed ample time to thoroughly warm up and cool down before and after the session.

During sports, activities and games, each pupil's labelled inhaler will be kept in a box at the site of the activity. Classroom teachers will follow the same guidelines as above during physical activities in the classroom.

The school believes sport to be of great importance and utilises out-of-hours sports clubs to benefit pupils and increase the number of pupils involved in sport and exercise. Pupils with asthma are encouraged to become involved in out-of-hours sport as much as possible and will never be excluded from participation. Members of school staff and contracted suppliers will be aware of the needs of pupils with asthma during these activities and adhere to the guidelines outlined in this policy.

Monitoring and review

The effectiveness of this policy will be monitored continually by the headteacher. Any necessary amendments may be made immediately. The governing board will review this policy annually.

Any changes made to this policy will be communicated to staff, pupils, parents and other relevant stakeholders.

The next scheduled review date for this policy is September 2026.
